JOIN THE JOURNEY TO UNRAVEL THE SECRETS OF HUMAN BRAIN AND MIND: Master’s Degree Programme in Brain and Mind

How do we see, hear, and feel?
Neurotechnology?
Understanding other persons?
Brains in interaction?
Emotions :-)?
What brains love in music?
Neuroimaging!
Brain stimulation!
Movies stimulating and stimulating the human mind?
Brain networks and networks of brains?

Would you like to learn more about cutting-edge research on these fascinating topics and more? If you have a bachelor’s or master’s degree and solid math skills, why not continue your studies in Finland and join our community of world-class neuroscientists by applying for the Master’s Degree Programme in Brain and Mind?

Our two-year international programme will also give you an excellent foundation for doctoral studies.
